PROFESSIONAL SUMMARY

Computer Science graduate from the University of Coimbra seeking an entry-level opportunity in software engineering or data science. Proficient in Python, SQL, and data pipelines with hands-on experience in automated unit testing and analytics. Proven ability to build and deliver a customer churn data pipeline using Pandas, Scikit-Learn, and PostgreSQL.

PROFESSIONAL EXPERIENCE

Curricular Summer Internship 3 months
SoftInov Soluções Tecnológicas · Portugal

- Focused on software testing and internal tool support, automating unit and integration testing with pytest.
- Gained practical experience in QA methodologies, PostgreSQL, REST API documentation, and team collaboration.

EDUCATION

B.Sc. in Computer Science (Engenharia Informática) September 2021 – July 2024
University of Coimbra, FCTUC · Coimbra, Portugal · 15/20

SKILLS & COMPETENCIES

Programming Languages & Databases: Python, SQL, PostgreSQL

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn

Tools & Methodologies: Git, Unit Testing, pytest, REST API Documentation, QA Methodologies

LANGUAGES

Portuguese: Native

English: C1 Advanced · Cambridge Certificate

CERTIFICATIONS AND ADDITIONAL TRAINING

C1 Advanced English Proficiency
Cambridge

PROJECTS

Capstone Project: Customer Churn Analysis: Built a robust data pipeline in Python analyzing customer churn and retention in a subscription SaaS with over 80k user records using Pandas, Scikit-Learn, and PostgreSQL.
