PROFESSIONAL SUMMARY

Dedicated Computer Science graduate targeting a Backend Software Engineer (Python) role, leveraging verified core skills in Python, PostgreSQL, and Docker. Proven academic excellence with a 15/20 B.Sc. degree from the University of Coimbra and practical internship experience building robust automated test suites and backend query workflows.

PROFESSIONAL EXPERIENCE

Software Development Intern July 2023 – September 2023
SoftInov Soluções Tecnológicas · Coimbra, Portugal

- Automated testing frameworks and backend test suites using Python and pytest.
- Handled PostgreSQL queries and database migrations supporting internal tools.
- Documented REST APIs and collaborated with engineering teams using Git and Docker.

EDUCATION

B.Sc. in Computer Science September 2021 – July 2024
University of Coimbra · Coimbra, Portugal · 15/20

SKILLS & COMPETENCIES

Programming Languages & Tools: Python, SQL, Docker, Git, PostgreSQL

Libraries, Frameworks & Concepts: Pandas, NumPy, pytest, RESTful APIs, Unit Testing

LANGUAGES

Portuguese: Native

English: C1 Advanced · Cambridge Certificate

PROJECTS

Capstone Project: Customer Churn Analysis (2024): Built a data pipeline in Python analyzing customer churn and retention using Pandas, Scikit-Learn, and PostgreSQL.

E-Commerce Cohort & Sales SQL Analyzer (2023 – 2024): Developed an E-Commerce Cohort & Sales SQL Analyzer using PostgreSQL (CTEs, window functions) and Python (Matplotlib, Seaborn) processing over 250k transactions.

Mini Inverted-Index Search Engine (2023 – 2024): Developed a Mini Inverted-Index Search Engine in Python featuring document parsing, tokenization, and TF-IDF scoring.

I consent to the processing of my personal data for recruitment purposes, in accordance with the GDPR (Regulation (EU) 2016/679).
