PROFESSIONAL SUMMARY

Backend Software Engineer (Python) and Tech Lead with extensive experience building scalable microservices, RESTful APIs, and distributed systems using Python (FastAPI, Django), Go, and PostgreSQL. Proven track record of re-architecting monolithic services and managing high-throughput backend infrastructure.

PROFESSIONAL EXPERIENCE

Staff Software Engineer / Tech Lead 2021-Present
CloudScale · Porto, Portugal

- Led system architecture for event-driven backend services and API platforms.
- Re-architected monolithic services into microservices using Go, Python, and Apache Kafka.
- Mentored engineers on code quality and technical design.
- Managed AWS cloud infrastructure and containerized deployments using Docker and Kubernetes.

Senior Backend Engineer 2018-2020
FinTech Global · Porto, Portugal

- Developed high-throughput REST and gRPC microservices in Go and Python.
- Designed PostgreSQL database schemas and optimized query performance for core financial services.

Software Engineer 2015-2018
InnoTech Labs · Porto, Portugal

- Developed backend services and RESTful APIs using Python (Django, FastAPI).
- Implemented relational database schemas and queries using PostgreSQL.
- Utilized Docker and GitLab CI/CD for containerized development and automated testing workflows.

EDUCATION

M.Sc. in Informatics and Computing Engineering 2010-2015
Faculdade de Engenharia da Universidade do Porto (FEUP) · Porto, Portugal · Mestrado Integrado em Engenharia Informática

SKILLS & COMPETENCIES

Programming Languages: Python, Go, SQL, Bash

Frameworks & APIs: FastAPI, Django, RESTful APIs, gRPC

Architecture & Systems: Microservices, Apache Kafka, RabbitMQ, PostgreSQL, Redis

Cloud & Tools: AWS, Docker, Docker Compose, Kubernetes, Terraform, Git, GitLab CI/CD

LANGUAGES

Portuguese: Native

English: C2 Proficient
