PROFESSIONAL SUMMARY

Computer Science graduate seeking an entry-level opportunity in data science or software engineering.

PROFESSIONAL EXPERIENCE

Curricular Summer Internship July–September 2023
SoftInov Soluções Tecnológicas · Coimbra, Portugal

- Focused on software testing, pytest automation, and PostgreSQL database support.
- Gained practical experience in QA methodologies, Python-based testing, and cross-functional team collaboration.

EDUCATION

B.Sc. in Computer Science 2021-2024
University of Coimbra · Coimbra, Portugal · 15/20

SKILLS & COMPETENCIES

Languages & Tools: Python, SQL, Git, Docker

Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn

Concepts & Methodologies: Unit Testing, QA Methodologies, Team Collaboration

LANGUAGES

Portuguese: Native (Native speaker)

English: C1 Advanced (Advanced proficiency) · Cambridge Certificate

PROJECTS

Customer Retention & Churn Prediction in Subscription SaaS (2023 - 2024): Built an end-to-end data pipeline analyzing over 80k user records for customer churn and retention using Python, Pandas, Scikit-Learn (Random Forest, XGBoost), and PostgreSQL, deployed via Streamlit.

E-Commerce Cohort & Sales SQL Analyzer: Analyzed e-commerce sales and user cohort data using advanced SQL queries.

Mini Inverted-Index Search Engine: Developed a search engine utilizing inverted-index data structures in Python.

I consent to the processing of my personal data for recruitment purposes, in accordance with the GDPR (Regulation (EU) 2016/679).
